Supdt. has taken advantage of the temporary provision in order to increase the strength of the regular establishment by employing temporary labour (often on monthly wages higher than the salaries paid to permanent staff) to carry on the routine work which he considers highly objectionable. He thinks that this provision is reserved for temporary labour to be employed only for casual work of a non-recurring character. If approved, full details of the number of hands employed on monthly wages in the different Gardens ~~at~~ at Bangalore Mysore and Kadapa during 1927-28 will be called for from the Supdt. He will also be requested to offer his remarks on the Comptr's letter

12 The idea of entertaining temporary non-pensionable labour and permanent pensionable labour is to

Serial No.

reduce the leave and pension charges which would otherwise have been incurred on the establishment of mainly manual labour which has the effect of removal of the statement attached to the G.O dated 14-1-25 with shows that in place of the existing permanent establishment (Col I of the Statement) a provision could have been made for more Temporary non-pensionable labour (Col 3) and as such there is no additional establishment as stated by the Contractor. According to the report of the Inspector and also according to the G.O dated 14-1-25 the Temporary non-pensionable establishment is practically similar to the permanent pensionable one except for leave and pension the number and scales of pay being flexible to suit the requirements of the works which fluctuate seasons

13 The Inspector also reports that whenever Casual labour is employed - the cost of which is much less Casual labour and contingencies - the bills are prepared in accordance with the procedure prescribed by the P WD

14 In the construction of the Shencottah Division

Committee the Supdt G. G is reported to have stated that the transfer of permanent pensionable labour to temporary non-pensionable wages agreed to provided he is permitted to have discretion in the matter of regulating their pay from time to time according to circumstances. The acceptance of this recommendation by Govt implies perhaps the acceptance of the condition also.

Flag B A 402 31-22-1

15 In this view the objection of the Accountant not to allow the Supdt. G. G to supplement his regular staff by employing temporary labour for the routine work of the Offt does not seem to be acceptable. The Supdt has referred in the penultimate para of his letter that for Casual labour employed for special and occasional labour the Cost of which is debited to Coolie and Contingencies the procedure prescribed by the PWD is being followed But there is another point observed by the Accountant is that the wages of temporary labour should not be higher than those allowed on the permanent scale The Supdt has however not directly answered this point but has generally stated in Para 2 of his letter that "the number employed at any time and the scales of pay they are paid are flexible so as to suit the requirements of the work of particular hours

on 20, 15, 14, 13, 12 and 10. The nature of work turned out by the Garden Manual labour though accounted for under different provisions in the Budget, appears to be similar in nature. This procedure as it is, does not admit of any effective check in audit office nor by the administrative department.

20 To regulate the employment of the Garden labour it would therefore be necessary - (i) to fix the number of different kinds of labour that would be necessary with reference to the requirements of the Gardens now under the control of the Gardens department, providing for any expansion in its activities, (ii) to fix the rates of pay, maximum and minimum, for each kind or class of labour (iii) to provide for this expenditure under a detailed head of account 'Labour' wherever they are employed.

With such effective classification and regulation of outlay the adoption of the present mode of provision and incurring of outlay makes audit control over expenditure nobbery effective.

Comptroller.

21 The Comptroller requests orders on the following points:—

(i) The Supdt. G.G. should not be allowed to supplement his regular staff by employing temporary labour for the routine work of Dept.

(ii) Whenever casual labour is employed the procedure prescribed for accounting for the same in the P.W.D. may be followed

(iii) Wages for the temporary scale may not be higher than those allowed in the permanent scale.

22—As regards (iii), the Comptroller's Contention is that there are instances in which the pay of a permanent Head Gardener is Rs 25/. while the pay of a temporary head gardener is sometimes Rs 30/ This is really anamolous and the Comptroller suggestion may perhaps be accepted.

23 As regards (i), the Supdt. says that the procedure prescribed by the P.W.D. is being followed. no action appears called for

NOTE—Contn. Sheet.

WD 0417--GPB—30,000-8-9-36

File No. G. G. 31 of 1935

General and Revenue Secretariat

Serial No.

With regard to item no(i), the Committee says the necessity for entertaining two kinds of labour – temporary and permanent. The former being sanctioned by the Supdt. and the latter by Govt. is not clear. It is invited to appendix 15 (G.O.Ms. P.C. 4649-50 G.M. 129-23.29 14-1-25) wherefrom it will be seen that L.S. Grants were provided in some cases for temporary non-pensionable labour in place of certain permanent Establishment with a view to reduce pension charges etc. and in accordance with the recommendations of the Sptl. Pensions Committee.

25 The Committee suggests the desirability of fixing a Scale of Establishment for non pensionable labour. This would mean that the Staff will have to be paid throughout the year even though there may not be any work. According to the Supdt. the non-employed at any time and the Scale of pay they are paid are flexible so as to suit the requirements of the works of particular seasons.

26 Submitted for orders, with regrets.

47 Returned with compliments.

There are the following items of provision in the budget on account of labour besides the provision for such labour as is borne on the permanent establishment.

1. Temporary Labour
2. Cooly labour and special charges.

All these different items of provision are being utilised for employment of temporary labour-regular or casual-for the same kind of work on the same garden. These labourers - temporary and casual- are continued almost throughout the year. Since the nature of work done by the different kinds of labourers is of the same kind since there is no definite scale of strength and wages fixed

either

Returned with compliments.

Before 1922 "Non-Pensionable labour" now termed as "Temporary labour" was Permanent establishment -- employed for the maintenance of gardens. To save on leave allowance and pension, Government approved of the proposal of the Retrenchment Committee to convert the Pensionable labour into Non-Pensionable labour vide G.O.No. L.2397-2458 dated 13/14th September 1922. Instead of different scales of pay for gardeners a - lumpsum amount was given, retrenching Rs 1000/- out of the permanent labour grant. Thus by converting the - Pensionable labour into Non-pensionable labour, Rs 1000 worth of labour was lost. The permanent establishment which was entertained for ordinary routine garden works was retrenched in number also.

Improvements are being carried every-year in all the gardens and as it is not possible for maintaining the gardens with the Permanent and Non-pensionable --- labour, casual labour is supplemented during the season The expenditure on Casual labour is often times more than that of Permanent labour for a given period in as much as it is employed for only a few months when there is pressure of work. It is not possible to have the system of accounting for casual labour in this department as in Public Works department as works of the same garden operations have to be done over and - over again.

Practically speaking it does not seem to be ~~to-day~~ quite correct that there will be a saving in money by not granting leave allowance and pension by converting -- Pensionable labour into Non-pensionable labour. Ordinarily men are not entertained in leave vacancies when leave is granted to gardeners in case of sickness or urgent private affairs. It is done only in a few - special cases. There is therefore practically no loss

loss to Government on this account.

Regarding pension, it is seen from the pension roll of this department that very few of the gardeners have completed their service and have drawn pension. This is due to the fact that the pay given in the Gardens department is so very low that after some time of their service gardeners leave the work and go out to take up more lucrative jobs. When this is so in the case of Permanent labour, it is still worse in that of the Non-pensionable labour in which the gardeners do not stick on even for fairly short periods.

Referring to item No.1 under para 35 of the - Comptroller's note, I am to state that the number of temporary cooly labour cannot be fixed, as they are to be employed according to quantity and quality of work. The number also depends upon the season at which works are to be taken up.

Regarding item No.2 under the same para, rate of pay may be fixed in the case of Non-pensionable establishment required for routine works, if it is made permanent and be given the other benefits of service.

In the case of Casual labour I feel I cannot agree to the suggestion made by the Comptroller to fix the pay, as the men are employed only for short duration. They are paid according to the quality of the work and other -- circumstances and they cannot be paid less than the - permanent labourers.

Regarding item No.3, I agree with the view taken by the Comptroller to provide for the expenditure under the detailed head of account "Labour" under each garden in the case of labour which is employed for emergent and seasonal works.

As regards para 47 of the Comptroller's note wherein he states that temporary and cooly labour are being --- employed for the same kind of works throughout the year in addition to regular permanent establishment, I have to state that what he says is true. At present there are - three kinds of labour in this department viz, Permanent garden establishment, Non-pensionable labour or Temporary labour and Cooly labour. Non-pensionable labour which is now termed as temporary labour is solely for the maintenanc of the gardens, in addition to the permanent establishment. This is called temporary because it is devoid of the -- benefits of permanent service; otherwise this was a -- regular establishment for the maintenance of the gardens before 1922 as already stated. Cooly labour on the other hand is employed as and when necessary, and sometimes, it - is employed throughout the year when the permanent --- establishment is not found sufficient. Such labour, whenever it is employed throughout the year, should also be brought under permanent establishment in as much as it is employed for permanent routine work.

As regards para 48 I consider that by placing the - present Non-pensionable labour on a permanent basis and providing a lumpsum grant of cooly labour it will facilitat the checking of details of charges incurred on these - accounts from time to time. This procedure will also help to facilitate checking of labour bills in this office.

Regarding the system of accounting, the present - system in the Gardens department will continue in the case of lumpsum grants provided for temporary cooly labour. The system adopted in the Public Works Department cannot be - followed in the Gardens department as the works in the - gardens are not susceptible of measurement.

The whole question boils down to this. There should be two kinds of establishment in this department - one Permanent and the other Temporary. The Permanent establishment will be employed for the maintenance of gardens throughout the year and the latter for -- emergent and seasonal works. The pay of the Permanent establishment will be fixed with a minimum and a maximum and the staff will have all the benefits of permanent service. In the case of temporary -- establishment a lumpsum will be provided under each garden and the pay of the staff will be fixed by the Superintendent according to the nature of work and the time at which they are employed.

If these suggestions are approved by Government, proposals will be submitted fixing the number of -- permanent hands required for the maintenance of each garden with time scales of pay and a lumpsum grant for each garden for Temporary establishment for emergent and seasonal operations.

H. E. Jawaharlal

SECTION

10/12/40

No. 430/Spl dated 10-2-41

U.O.No.463/B.i. dated 5th February 1941.

Returned with compliments.

2. In this office U.O.reply No.308/B.i. dated 25th February 1937 it was stated that the labour employed in the Gardens Department was provided for under various heads of account in the Gardens Budget, and that it was desirable to bring the temporary non-pensionable and casual labour employed under one head viz. "Labour" as in the case of other departments for example Agricultural Department. The Superintendent has no objection to the adoption of this suggestion.

3. Again in this office U.O.Note No.417/B.i. dated

NOTE—Contn. Sheet

Serial No.

dated 10-1-1940 it was made clear that in the absence of a definite scale of strength and wages fixed (either by different classes of labour or by Gardens) it was not possible to have any effective audit control over the expenditure incurred under non-pensionable temporary establishment and casual labour and that it would be necessary to fix the number of different kinds of such labour with reference to the requirements of the gardens now under the control of the Gardens Department and also to fix the rates of pay for each kind or class of labour. The Superintendent states that the rates of pay may be fixed in the case of non-pensionable establishment if it is made permanent with benefits of such service. It has to be stated that in other departments too there is non-pensionable temporary work charged establishment with definite scales of pay and strength and there does not seem to be any difficulty in a similar procedure being adopted by the Gardens Department also without giving the staff the benefits of permanent service as this will enable audit to have control over expenditure which is of utmost importance.

4. As regards the casual manual labour, the Superintendent is not for fixing the pay and strength for obvious reasons. In this case a lumpsum amount may be necessary to be provided in the budget for each garden under temporary or casual labour and to watch expenditure against lumpsum grant. A limit up to which the Superintendent may employ labour has to

3

be

1576 of 39 40

23

Regulating the employment of Garden manual labour of 1935.

OFFICE OF THE COMPTROLLER TO THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE,

Bangalore, dated 15th November *193*5

EDUCATIONAL BRANCH
22 NOV. 1935
1450
GEN. & REV. SECTT.

FROM

A. N. RAGHAVACHAR, ESQ., M.A.,
Comptroller to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

To —

M. Venkatanaranappa, Esq., B.A.,
Secretary to the Government of Mysore,
Development Department, Bangalore.

SIR,

I have the honor to invite kind reference to Government Order No.I.C.4649-50/G.M.129-23-2 dated 14th January 1925 and Government Order No.D.9426-85/G.G.79-26-2 dated 30th April 1927 regarding the sale of establishment and temporary labour fixed for the Gardens Depar ment and to state that in the above orders, in addition to the perman establishment of Head Quarters, Gardeners, Gate Peons, etc., fixed fo each garden, a lumpsum provision is also placed at the disposal of th Superintendent, Government Gardens, under "Temporary Labour". The Superintendent, Government Gardens is, on the strength of these Goven ment Orders, regularly employing temporary labour for each of the gardens in addition to the permanent labour and is drawing their wa also on establishment bills. When it was pointed out to the Superin dent in this office letter No.623 dated 1st April 1935 that the wag of "Temporary Labour" should be claimed on nominal rolls giving the usual certificates and details of work done etc as required by rule contained in Appendix XII pages 115-7 of M.C.A.C.Volume I, the Supe tendent states in his letters No. 2298 dated 4th May 1935 and 2482 dated 21st May 1935 that the work of the establishment entertained temporary labour, is the same as that for the permanent people who also to come to "Kaval" night and day and that it is therefore not possible to specify in the bill the works done by this staff as th work also entirely pertains to the routine works of the garden. He however now fixed a temporary scale showing the number and wages.

this "temporary" establishment.

2. The necessity for entertaining two kinds of labour i.e. temporary and permanent, the former being sanctioned by the Superintendent and the latter by Government for carrying on the routine works of the Department is not clear and it is not also desirable to permit the Superintendent to effectively increase the strength of the regular establishment by employing temporary labour to carry on the routine work for which there is already a sanctioned permanent establishment.

3. Generally temporary labour has to be employed only for casual work of a non-recurring character and they are not intended to supplement the permanent men for the normal discharge of their routine duties as this in effect would mean a recurring enhancement of the scale permanently. If such an increase to the permanent staff is absolutely necessary ~~as~~ called for the Superintendent has perforce to obtain sanction of Government for increasing the establishment and should not be permitted to sanction the same from the provision for temporary labour. I enclose herein for the information of Government a statement of the establishment for Bangalore Gardens which shows the actual increases made by the Superintendent in the various scales of establishment for the several gardens by drawing on the provision for "temporary labour." Further, the scale of pay and establishment for the temporary establishment in certain cases is higher than those for the permanent staff (for instance, as in the margin).

The permanent establishment for Curzon Park is Head Gardener (25), Gardeners 2 (15), 2 (13) but under temporary establishment, there are 27 labourers against 5 in the permanent establishment of the following scale:-
Head Gardener (30), Gardeners (13) 3 (12), 3 (10), 3 (8), (7)
Sweepers 12 (6), (5), 2 (4).

4. If the routine work of the Department necessitates the employment annually of a certain minimum number of permanent labourers, it would be desirable to fix both on administrative grounds and for audit purposes, a suitable fixed rate for each class of work to provide for the minimum requirements and with the

the maximum rates so fixed and the budget provision allotted ~~to permit~~ may the Superintendent ~~to~~ entertain such temporary labour for this purpose for a specified period. Where in addition, however, the Superintendent employs casual labour out of lumpsum grant, nominal roll may be asked to be kept as per rules the nature of the work done being clearly stated thereon though the exact quantity may not be susceptible of measurement.

5. I request orders of Government on the following points:-

(i) The Superintendent, Government Gardens should not be allowed to supplement his regular staff by employing temporary labour for the routine work of the Department.

(ii) Whenever casual labour is employed the procedure prescribed for accounting for the same in the Public Works Department may be followed, the work turned out such as weed clearing etc., being accordingly noted though the same may not be susceptible of measurement.

(iii) Wages for the temporary scale should not be higher than those allowed in the permanent scale.

I have the honor to be,
Sir,
Your most obedient servant,

Comptroller.

His Highness the Maharaja of Mysore,
Bangalore

CHIEF SECRETARY
1 DEC 1936
GOVT OF MYSORE

Subject:- Employment of temporary labour in the - Gardens Department.

Sir,

With reference to your letter No. E 1623/GG 31-35-2 dated 6th - December 1935 and subsequent reminder thereon ending with your D.O. letter No. D 3379 dated 23-11-1936 asking me to furnish my remarks on the employment of temporary labour in the Department together with full details of the number of hands employed on monthly wages in the --- different gardens both at Bangalore and Mysore since the year 1927-28; I have the honour to submit herewith seven statements furnishing -- details of the hands employed in different gardens showing the scale of pay they are paid since 1927-28 to 1935-36.

2. In order to give effect to the recommendation of the Retrenchment Committee as approved by Government in their Order No. L 2397-458 A & E. 51-22-1 dated 13/14th September 1922 the permanent Establishment of the Labour Force of the Department was divided into Pensionable and Non-Pensional labour so as to effect savings in the pensions payable and also make the menial staff of the Non-Pensionable labour more elastic by provid lumpsum. Government, while sanctioning the revision of the Establish relating to this subject (vide G.O.No.I.C.4649-50/Gm.129-23-2 dated 14th January 1925) termed the Non-pensionable into a temporary labour The hands borne on Non-pensionable labour or temporary labour are - similar to permanent labour except that they are not entitled to leav and pension. The number ~~xx~~ employed at any time and the scale of pay they are paid are flexible so as to suit the requirements of the work of particular season.

9

More labour is being engaged at busy seasons, paying them sometimes higher wages than the pensionable hands, according to the nature and quality of works to be got done, keeping the expenditure, however, -- within the annual grant as got approved by Government in their Order No D 4310-11/GG 35-26-2 dated 4th December 1926.

4 The Menial Establishment now existing consists of Pensionable and Non-Pensionable hands, entertained throughout for the upkeep of the gardens. The division was only made with the object of effecting - economy as stated above. The non-pensionable labour is, therefore, not an addition to the Permanent Establishment as viewed by the Comptroller to Government of Mysore, Bangalore.

5 Due to the development of the Department and the marked expansion of work in all sections casual labour is also employed throughout the year to carry out special and additional works and the amount spent on such works is debited to the heading "COOLY LABOUR & CONTINGENCIES" provided in the Budget. While sending these bills to the Comptroller to the - Government of Mysore, the procedure prescribed in the Public Works - Department is being followed.

6 In these circumstances, I have to state that it will not be -- possible to adopt the proposals made by the Comptroller to Government of Mysore on this subject and the procedure that is being followed now in this Department as explained above may be allowed to stand.

I have the honor to be
Sir
Your most obedient servant,

OFFICE OF THE COMPTROLLER TO THE GOVERNMENT
OF HIS HIGHNESS THE MAHARAJA OF MYSORE

No. 107//B.I. & copies of two letters Bangalore, dated 4th August 1938. 193 5

From

A. N. RAGHAVACHAR, Esq., M.A.,
Comptroller to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

To

B.T. Kesaviengar, Esq., B.A.,
Chief Secretary to Government of Mysore.
BANGALORE.

GEN. & REVENUE SECRETARIAT -5 AUG 1938 DEVELOPMENT BRANCH

Sir,

In continuation of this office letter No.632/B.I dated 14-5-38 on the subject of "Regulating the employment of Garden manual labour", I have the honour to report as follows:--

The power allowed by Government to the superintendent Government Garden in letter No.D. 4310-11/C.G. dated -- 14-12-1926 is that he may not be required to keep the expenditure rigidly to 1/12 of the annual grant but he may be permitted to incur expenditure so long as the annual limit fixed in the sanctioned Budget for "Temporary Labour" is not overdrawn. Although the Superintendent Government Gardens was informed in May 1938 that the annual provision of Rs.18,108/- for the year 1937-38 for labour under "Temporary Labour of the Department" had been worked out leaving a balance of Rs.1297-12-0 only, for expenditure during the remaining part of the year, a claim for Rs.1691-2-0 being the pay to Temporary coolies for the month of May 1938 was sent in June 1938, without taking any action to regularise the excess expenditure. The bill was therefore objected to in Audit and the Superintendent was requested to intimate the action taken to regularise the excess. The bill was returned without any explanation reducing the claim to Rs.1298-6-0 to bring the expenditure within the available amount by a general reduction for a sum of Rs.400-11-0 from the original claim without reference to individual claims

The

The revised bill was passed and a special letter was addressed to the Department in the matter (Letter No.733/B.1 dated 17-6-1938) a copy of which is enclosed for reference. The Superintendent forwarded a supplemental bill for Rs.400-11-0 explaining that the excess was due to undertaking a number of urgent improvement works during May 1938 and urged that the expenditure may be debited to the grant for the year 1938-39 and that the bill be passed immediately as the labourers were suffering for want of wages. A copy of his letter is enclosed for reference. It is seen from the bill that Garden labourers of longstanding service have been kept without pay for two months by a general reduction of Rs.400/- in the last month of the year effected by a reduction in the total of the bill without reference to individual claims, on the ground that the Budget grant had been exceeded. The bill has however been passed on the responsibility of the Superintendent as the coolies could not be made to suffer any ~~any~~ longer for want of pay for the irregularities allowed by the department.

In this connection I have to bring to the notice of Government that if the Department persists in this method of accounting and allows delays in the discharge of the claims and excess without regulating the expenditure even though previously intimated of the possible excess, the procedure is likely to ~~land~~ lend itself to manipulations that may land Government in loss and payment without work.

I have therefore to request that as already reported Government maybe pleased to fix a regular scale of Garden Manual Labour to each garden according to its requirements, the Superintendent's responsibility being defined for excesses in each case with reference to monetary limits.

I have the honour to be
Sir,
Your most obedient servant,

M. Viraraghavachar
Comptroller.

RGC
5-8-1938

D.17-6-1938.

Letter No.733/B.I from the Comptroller to the Government of Mysore, Bangalore, to the Superintendent Government Gardens in Mysore, Bangalore.

.....

With reference to the marginally noted bill of the temporary establishment for May 1938 for Rs. ~~1,297-6-0~~ 1691-2-0 (Nil.) revised for Rs.1,297-6-0, I have to observe as follows.

(i) In this office objection memo No. T.1130/B.I dated 11-5-1938 it was pointed out that the amount available for expenditure during the remaining part of the year was Rs.1,297-12-0. But a bill for Rs.1,691-2-0 was sent for audit which has been subsequently revised to Rs.1,297-6-0 without intimating why action could not have been taken to get sufficient funds provided for to meet the expenditure during the year. Information on this point may kindly be furnished.

(ii) It is seen certain items have been struck off. No reasons have been assigned for these reductions. How these items are proposed to be dealt with may kindly be intimated.

N.T.No 451/B1 dt 14-7-1938.

5-8-1938.

Copy of the letter No. T 82 dated 11-7-1938 from the Superintendent, Government Gardens, in Mysore, Bangalore, Bangalore to the Comptroller to the Government of His Highness the Maharaja of Mysore, Bangalore.

.....

With reference to your letter No.733/Bi dated 17th June 1938 I have the honour to forward herewith a supplemental establishment bill for the month of June 1938 for Rs.400-11-0 being the wages of labourers borne on the Non-Pensionable Establishment of Cubbon Park. The excess was due to the fact that a number of urgent improvement works had to be taken up on hand during the mongh of May 1938 when the season was very favourable for garden operations and seasonal works.

In these circumstances, the excess expenditure had to be incurred and the same is debited to this month. I request you therefore to kindly arrange to pass the bills today as labourers are suffering for want of their wages.

This may kindly be treated as urgent.

Thanking you,

Subject:- Regulating the Employment of Garden - Manual Labour in the Gardens Department.

****

Dear Sir,

With reference to correspondence ending with your D.O.No. D 188/GG 31-35 dated 5th July 1939, I herewith submit the statement showing the Distribution of Gardeners borne in Permanent, Non-Pensionable and Temporary Cooly Labour Establis-h-ments in Lalbagh, Cubbon Park, Kumara Park, Ballabrooie and Carlton House gardens and also New Gardens in Bangalore, as it stood during the month of June 1939 for your kind reference, with my Notes on the subject for your kind consideration.

Yours sincerely
L. S. Dorasami
5/10

of audit for information. The maximum pay under this Establishment will be about Rs 15/- p.m.

Further, in the case of these Establishments, it is very difficult to draw in detail the exact nature of works which each gardener does individually as garden routine operations are very peculiar in nature and at times it so happens that one and the same operation will have - to be repeated over and over again in the interest of a variety of - plant life, to obtain mature results, which necessitates the need for - the employment of additional extra labour as and when required.

The small additional amounts required against each garden are - calculated with reference to their actual requirements as far as -- experience goes, since the labourers have to be employed throughout the year as there is no season fixed for garden operations, in as much as either normal or special works have to be kept on going continuously in the interest of plant life, and hence the additional amounts now - provided are quite necessary to keep on the Establishment.
In conclusion, it is found that the allotment provided under Non-Pensionable and Temporary Cooly Labour Establishment is absolutely necessary and in addition a little more is also required as shown in the statemen

******

L.S. Srinivasan
Superintendent 5/10

Government Gardens in Mysore.

5/10

A Note on the Garden Establishments - Permanent, Non-Pensionable and Temporary Cooly Labour - in Lalbagh, Cubbon Park and --- New Gardens in Bangalore and Mysore.

*****

Further to personal discussion with the Assistant Secretary to Government of Mysore, regarding the employment of Temporary labour I have the honour to submit the following particulars for the -- information of Government.-

That there are two kinds of Temporary labour in this department in addition to the fixed Permanent Garden Establishment for each garden viz, the temporary labour for which lumpsum provision is -- budgetted is maintained throughout the year regularly month by month without any break and this Establishment is known as Non-Pensionable Establishment where the pay of each individual is fixed on merit, efficiency and service, as the case may be, ranging from Rs 2/- to --- Rs 18/- p.m. as at present. Though the strength of the Establishment and its charges vary from month to month the provision is spread over for the twelve months of the year, and drawn on regular Establishment Bills, as Non-Pensionable Establishment bills. The gardeners borne on this establishment will have no benefit of leave etc.

The other kind of temporary labour Establishment is called as Temporary Establishment as distinguished from the above Non-Pensionable Establishment. This Establishment is also employed to supplement the two kinds of establishments referred to above. But in this case also the strength of the Establishment and its charges vary from month to month. For Lalbagh a lumpsum provision is being regularly - budgetted as "Cooly Labour and other Special charges" and "Menagerie and Aviary" where only a portion of the provision is being utilised for the purpose and its upkeep and the rest for contingent purchases and for feeding charges of Birds and Animals. For the rest of the - gardens, viz Cubbon Park and New Gardens in Bangalore and Mysore, it is being allocated (from the lumpsum of Rs 13000/- budgetted for 1938-39 and the sanction of Government obtained therefor. The gardeners borne in this Establishment are not entitled to the benefits of leave etc. as in the above case, and their wages are being drawn on Nominal Roll detailing the nature of works on which the gardeners were employed each garden duri[illegible]ch month in conformity with the requirements

Government Gardens Department.

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

General and Revenue Secretariat.

No. D 4231 Encl

Dated Bangalore, ...5...March...1941..

FROM

The Chief Secretary to the Government of His Highness the Maharaja of Mysore.

To

The Superintendent,
Government Gardens in Mysore,
Bangalore.

Sir,

Subject:- Regulating the employment of Garden Manual labour.

With reference to correspondence ending with your U.O.Note dated 26-11-40 on the above subject, I am directed to forward herewith copy of Un-official Note No.463/BI.dated 6th February 1941 from the Comptroller on the same subject, and to request you to send lists of pensionable and non-pensionable establishments and the lumpsum grants required for each garden for meeting the charges of temporary labour, as suggested by the Comptroller.

I have the honour to be,
Sir,
Your most obedient servant,

For Chief Secretary to Governmen

K.M.R.2.

U.O.No.463/B.i. dated 5/6th February 1941.

In this office U.O.reply No.308/B.i. dated 25th February 1937, it was stated that the labour employed in the Gardens Department was provided for under various heads of account in the Gardens Budget, and that it was desirable to bring the temporary non-pensionable and casual labour employed under one head viz., 'Labour' as in the case of other departments for example Agricultural Department. The Superintendent has no objection to the adoption of this suggestion.

3. Again in this office U.O.Note No.417/B.i. dated 10-1 40, it was made clear that in the absence of a definite scale of strength and wages fixed (either by different classes of labour or by Gardens) it was not possible to have any effective audit control over the expenditure incurred under non-pensionable temporary establishment and casual labour and that it would be necessary to fix the number of different kinds of such labo with reference to the requirements of the gardens now under the control of the Gardens Department and also to fix the rates of pay for each kind or class of labour. The Superintendent states that the rates of pay may be fixed in the case of non-pensionable establishment if it is made permanent with benefits of such service. It has to be stated that in other departments too there is non-pensionable temporary work charged establishment with definite scales of pay and strength and there does not s to be any difficulty in a similar procedure being adopted by t Garuens Department also without giving the staff the benefits of permanent service as this will enable audit to have control over expenditure which is of utmost importance.

4. As regards the casual manual labour, the Superintendent is not for fixing the pay and strength for obvious reasons. In this case a lumpsum amount may be necessary to be provided in the budget for each garden under temporary of casual labour and to watch expenditure against lumpsum grant. A limit up to which the Superintendent may employ labour has to be fixed the excess over this limit being sanctioned by Government.

5. If these proposals are acceptable to Government, the Superintendent Government Gardens may be requested to implement his proposals on the lines indicated above so that audit may be conducted with reference to the sanctioned scales of pay and sa -tioned strength in the case of permanent and temporary non-pensionable establishments and with reference to lumpsum grants for each garden in the case of employment of casual labour.

4) Returned with compliments.

5) I have no objection to the proposed transfer of the grounds and lawns of the Vani Vilas Hospital, Bangalore, from the beginning of the next official year. But funds must be sanctioned for their maintenance and improvement and provision made in the next year's budget for the same The grounds are very extensive and the layout was undertaken at the request of the Executive Engineer, Buildings Division, Bangalore and further improvements have still to be effected. It is therefore necessary to entertain the following establishment and to provide funds for meeting all incidental charges required for the efficient upkeep:-

15 In accordance with the General orders of Govt all gardens in ~~Govt~~ the Compound of ~~the~~ Govt buildings have to be maintained by the Gardens Dept. So the transfer of Gardens as suggested may be approved. As regards the proposed Scale of Expr further information as noted below has to be obtained. ~~In the present~~ and the necessity for such large recurring Expr as 2,200 p.a. has to be examined. In accordance with Govt Nos R 603-62/F 18-35-1 dated 18-7-35 he has to suggest corresponding Savings Elsewhere. It is well known that there is no margin in the Revenue Budget for sanctioning additional recurring Expr.

(1)

(2)
1) What is the Cost for. rose is carried by the P.W.D
2) Is the scale of Expr Sanctioned of reduction
3) Can he not expect to get any receipts from the sale of fruits to counterbalance this Expr to some Extent?

(3) 4) Is there now no Garden in the Compound of the old Maternity Hospital Buildings? If so, where is, how can that garden be transferred to the new building? If not, why the Garden is kept as it is now?

Re: Asst. Secy's note.

(1) This is an add responsibility, being a new compound & a large one. It is not possible to show corresponding savings

(2) There is no present scale as the compound

The garden are new. No revenue is likely as the compound will be constantly visited by visitors.

(3) The old ~~garden~~ Compound is to be maintained as State offices are located there.

Asst Secy

Bm 24-4-36

W. 24.4.36

17 The proposal involves an extra recurring expenditure of Rs 2,200 per annum, and in the present financial condition when it is found not possible to provide funds even for necessary items of expenditure such as maintenance of hospitals, it is undesirable to incur large expenditure for the maintenance of gardens, which is comparatively a less important, if not avoidable, item of expenditure. In any case, it is necessary to ascertain the cost now incurred by the P.W.D. to see whether the scale of expenditure proposed is not excess...

Maintenance of Gardens attached to Vani Vilas Hospital.

4114

Letter no. 1662 dt 2.2.37 from the Supdt. G. G. furnishing information about the expenditure incurred for the maintenance of gardens in the Victoria and Minto Hospitals

2| The proposal is to transfer the maintenance of the gardens attached to the Vani Vilas Hospital at Bangalore to the Control of the Gardens Dept

The Supdt G. G. wants a provision

OR Rs 105 p.m. for Establishment
or in all Rs. 2380.
R Rs 1120 p.a. for Plant, implements ~~Rs 2380 per ann~~. such as water charges, manure etc.

22 The following statement indicates the scale of expenditure sanctioned for the Victoria and Minto Hospitals :-

	Establishment	Contingencies
Victoria Hospital	OR 68 p.m. or R. 816 p.a.	Rs 100 p.a.
Minto Hospital	32 "	384 p.a.	40 p.a.

Details of expenditure under Contingencies are not known. Apparently, Water charges, manure &c have not been included.

Submitted orders with regret.

18.5.2.37.

23 It does not appear that the grounds of the new Maternity Hospital are either more extensive or very much more expensive to maintain than those of the Victoria Hospital. The present cost incurred by the Mysore is Rs 80/- per month and is ~~very heavy~~ not much in excess of what is spent on the Victoria

Serial No.

Hospital grounds. In this view an additional grant of Rs 1000 p.a may perhaps be sanctioned. If the amount is decided upon the Supdt will be requested to submit details of expenditure under the heads "estt" and "Contingencies"

Ch. Secy 6.2.37

24 For how long has the P.W.D. been incurring an Expr of Rs 80/- p.m. on the Gardens?

Maintenance of lawns in Vani Vilas Hospital grounds in Bangalore City.

I have the honour to submit herewith for information a copy of letter No.328 dated 6-11-1935 received from the Executive Engineer, Buildings Division, in connection with the above.

2. It is seen therefrom that the Superintendent Government Gardens, requires sanction of Government for the formal transfer of the grounds to the gardens Departmentx to enable him to obtain necessary sanction to maintain additional establishment etc., I request that this may kindly be obtained and communicated.

3. Kind approval may also be conveyed early, for the maintenance of the grounds by the Executive Engineer, Buildings Division, debiting the cost to the estimate for the construction of the building until the proposed transfer is effected.

"Copy"

For Chief Engineer of Mysore.

6/11

Letter No.328 dated the 6th November 1935 from the Executive Engineer, Buildings Division, Bangalore, to the Superintending Engineer, Mysore Circle, Mysore.

Maintenance of lawns etc., in Vani Vilas Hospital grounds in Bangalore City.

I have the honour to report that extensive lawns, both inside the courtyard and outside the Vani Vilas Hospital are laid by the Gardens Department. The cost has been met by the P.W.D. debiting it to the construction of Vani Vilas Hospital estimate.

2. When the Vani Vilas Hospital was handed over to the Medical Department during last March 1935, it was thought that further maintenance of lawns etc., would be looked after by the Gardens Department out of their budget, as in the case of the lawns of the Victoria Hospital and Opthalmic Hospital.

3. However, on the representation of the Gardens Department Superintendent, that the cost might be met by the Hospital estimate alone for the official year 1934-35 and that provision would be made in the Gardens Department for 1935-36, the cost of maintenance was continued to be debited to the Hospital construction estimate alone.

4. The Gardens Superintendent writes to me now, however that the grounds should be formally handed over to him under a Government order and that this letter would enable him to get sanction for maintaining additional establishment etc., and that till then the

maintenance charges must be borne by this Department under construction estimate alone.

5. Since the lawns formed at such great cost have to be maintained at all events, I am meeting the bills of Garden Department in this respect.

6. Again the water supply department is sending bills for consumption of water charges for the maintenance of lawns, etc., The Superintendent, Gardens Department having referred the bills to this office for payment as in the case of dues of his own special staff, this has had to be met also by the estimate open

7. I therefore now formally move that necessary Government order may kindly be got issued transferring the grounds of Vani Vilas Hospital to the Gardens Department and that all maintenance charges should be arranged to be provided for in the budget of that Department. This should be resorted to, particularly, since the Hospital work is coming to a close and the estimate has to be closed in accounts too very shortly.

8. Early action is again solicited.

lgm 9/11

Letter No.3633 dated 11-6-1936 from the Superintendent, Government Gardens in Mysore, Lalbagh, Bangalore, to the Superintending Engineer, Mysore Circle, Mysore.

Transfer of the grounds and lawns of the Vani Vilas Hospital, Bangalore, to the Gardens Department.

With reference to letter No.1248 dated 9th instant addressed to you by the Executive Engineer, Bangalore Buildings Division, about the reduction of expenditure as against the sum of Rs.80/- per mensem now being incurred by the Public Works Department, I have the honour to forward herewith a copy of the estimate amounting to Rs.2,200/- submitted to Government for the maintenance of the above grounds for your information. In view of the extensive area of the grounds, and the importance of the place, the expenditure proposed is reasonable and it is not therefore.

Government Gardens Departments.
Maintenance of Vani Vilas Hospital Gardens, Bangalore.

Establishment.				Expenditure.	
Head Gardner 1 (18)	216	0	0	Water charges	Rs. 600/-
Gardners 1 (15), 2 (12) 3 (10) and				Manure, red earth sand and tools	275/-

Executive Engineer.

OFFICE OF THE EXECUTIVE ENGINEER,
WATER SUPPLY DIVISION,

Dated Bangalore, 26th February 193 7

Dear Mr. Keshava Iyengar

I understood recently from the Range Officer that you were desirous of utilising unfiltered water schemes for watering the Gardens of Government Departments wherever possible. In this connection, I wish to state that a scheme for Rs.4,000/- and odd has been sent to the Buildings Division to sink a well near the Disinfection Stores in the compound of the Victoria Hospital and lay a C. I. main from Here up to Tippu Sultan's Palace. The water pumped from the sub soil supply at this place can be used for all the gardens in the Hospital Zone and even for operating the spray fountain and also the gardens near Tippu Sultan's Palace The cost of operation may not be more than 3 annas per 1,000 gallons against Re.1/- ~~1000~~ at present.

I

I request you to be so good as to arrange to sanction this scheme from the Gardens Departmental Budget for 1937-38 if possible, after receipt of the estimate from Buildings Division Executive Engineer.

Yours sincerely,

H Ganesh

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
Bangalore.

Sir,

With reference to your letter No.D 5561/G.G.33-35-4, dated 15/16th February 1937 requesting me for a report of my views on the suggestions made in the above letter for reducing the estimated expenditure on account of the maintenance of the gardens in the Vani Vilas Hospital compound, I have the honour to state as follows:-

1. The use of filtered water for the gardens is not desirable and as a scheme for constructing a well and fitting it up with a pump etc., received from the Executive Engineer, Water Supply Division, Bangalore, costing Rs.4645/- is herewith sent for kind perusal. If this is done, Rs. this expenditure may be saved as otherwise the amount of Rs 600/-is quite necessary for watering the extensive lawns etc laid out in this compound.

2. Contingent expenditure proposed is only Rs 520/- and the amount of Rs 1120/- includes water charges also. This amount is quite necessary for the efficient maintenance of the garden.

3. The area of the Vani Vilas Hospital compound is about 20 acres and one gardener for two acres is quite necessary for the efficient upkeep. If the amount is reduced to Rs 70/- per mensem, two gardeners will have to be removed and this will greatly affect the general maintenance of the garden.

4. In the above circumstances I request you to kindly have the estimate sanctioned fully without reducing it so that the efficiency in the maintenance of this garden may not be affected.

I have the honour to be,
Sir,
Your most obedient servant,
Narayana Reddi
Offg Superintendent
3/3/37

Copy of the letter No.1945 dated 14/15th April 1936 from the Executive Engineer, Water Supply Division, Bangalore. to the Superintendent, ---- Government Gardens, Bangalore :-

Sir,

Scheme for supplying unfiltered water to the quarters in - the Hospital zone, Bangalore.

I have the honour to state that the present consumption of filtered water for garden purposes in the Hospital zone at the Fort is about 15000 gallons per day and the cost per month at Re.1/- per 1000 gallon works up to Rs. 450/-. Even otherwise the consumption of the filtered water for garden purposes at this place affects the supply to Basavangudi area. It is therefore proposed to supply unfiltered water for - garden purposes at a cost of Rs. 94/- per month resulting in a monthly savings of about Rs. 350/-. The cost of the present scheme in respect of water supply for garden purposes comes to Rs. 4645/- as per estimate herewith attached. As the cost of water supply to the gardens is to be borne by the Gardens Department the estimate is sent for your counter-signature and return with necessary funds, so that the work may be taken on hand. The scheme is to sink a well 40' deep and 8' diameter near the Jalakanteswara Park in the compound of the Victoria Hospital and pump water by installing a 5 H.p. pump. This is on the assumption that this well would supply water continuously for the pump, as a big pond was in existance at this place. It is learnt that this well had a perennial supply of water. Further the surrounding locality indicates perennial supply as was observed when the sewage pipe line near the - new market was laid when water was found within a depth of 8 feet. The Narasimharaja Park is very near to the Victoria Hospital and the wells in that park had very good supply to the kitchen gardens that existed there prior to the formation of the park. Under these conditions a good supply of water for garden purposes for the Hospital zone may be relied upon. An actual well for a trial may be made and the question investigated by spending a few hundreds of rupees i.e. perhaps Rs. 300/-. After the well is sunk a 4" main will be laid to a length of 500' and then -- bifurcated and 3" lines will be laid for the remaining length and the existing hydrants will be connected to this system. Etc.

The scheme appears promising and may work at a profit. I request you to consider the scheme in the several aspects as explained above and your decision may be intimated for taking further action in the matter.

I have the honour to be

Sir

Your most obedient servant,

Sd/- V.Ganesh Iyer,

Executive Engineer,
Water Supply Division.
